

IDENTIFYING YOUR OPTIONS – PROVIDING SOLUTIONS

brand MARINE CONSULTANTS GmbH is a fast-growing global Marine Consultancy. Since the company was founded in 2014, BMC has completed over 350 projects on behalf of shipowners, law firms, P&I clubs, offshore contractors, ship-yards and insurance companies. BMC offers a wide range of complimentary services to the Shipping sector.

CASUALTY MANAGEMENT INCLUDING SALVAGE & WRECK REMOVAL

Our primary objective is always to prevent an incident from turning into a full-blown crisis. Our Consultants pay special attention to identifying and prioritising the interests of the main stakeholders, organising resources accordingly and mitigating the risks and costs of the whole operation.

CASUALTY INVESTIGATION

Casualty Investigation involves establishing the root cause and extent of any damage. Our wide range of techniques for acquiring the necessary information and data includes inspections, interviews, 3D simulations, diving, ROV and side scan surveys. We are committed to providing clear, no-nonsense and independent reports.

SURVEYS

As experienced Marine Surveyors our consultants have performed inspections globally on vessels of all types, from Mega-Yachts to Warships. The types of survey we perform, range from pre-purchase to post-grounding. We are specialised in inspecting vessels, cargo & machinery through to facilities such as drydocks and offshore installations.

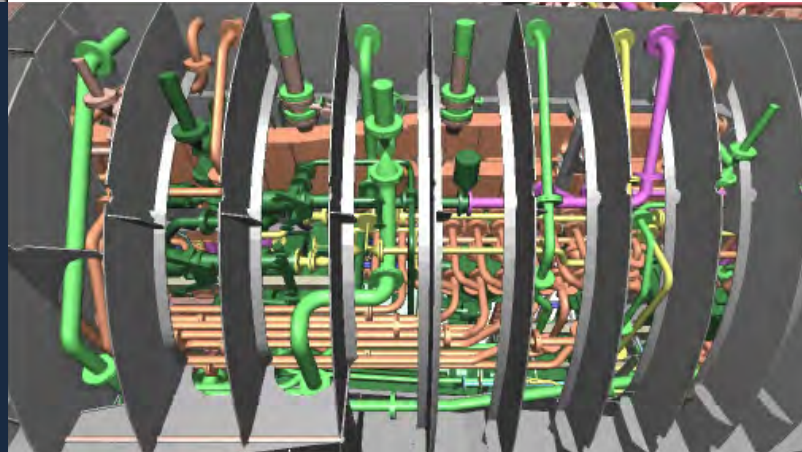

EXPERT WITNESS SERVICES

As Marine Consultants we have an excellent track record, recognised qualifications and significant expertise in the Marine and Offshore sectors. We boast a combined experience that spans decades. We are frequently engaged as independent experts to provide evaluations and reports for a variety of maritime cases.

ENGINEERING SERVICES

brand ENGINEERING SOLUTIONS GmbH is bMC's engineering branch, it offers a comprehensive and diverse range of services, including; New-building design, Naval Architecture Consultancy, Engineering & Design Packages, FEM Calculations, CFD Analysis, Simulations, Expert guidance during repairs, Structural Design and Document Control.

LOCATIONS
